

Station Information

The pictures above show how the operating positions at W8LT look today. The picture on the left shows the VHF operating position and the picture on the right shows the HF operating position. Here is a list of our equipment:

VHF/UHF Equipment

- Yaesu FT-726R (6m-2m all mode transceiver)
- Yaesu FT-736R (2m-70cm all mode + satellite transceiver)
- Yaesu TW-4000A (70cm FM mobile transceiver)
- Yaesu TR-7400A (2m,70cm FM/packet mobile transceiver)
- Mirage A1015 (6m 150W amplifier)
- Mirage R23G (2m 30W amplifier)
- RF Concepts 4-110 (70cm 100W amplifier)

HF Equipment

- Kenwood TS-180S (80m-10m 100W ssb/cw transceiver)
- Kenwood TS-830S (80m-10m 100W ssb/cw transceiver)
- Kenwood TL-922A (500W amplifier)

Antennas (on Rotatable Mast, About 80' Above Average Terrain)

- 4-element 2m/70cm Yagi (horizontal)
- 3-element 6m Yagi (horizontal)
- 3-element 10m/15m/20m Yagi (horizontal)
- 80m dipole (radiates southeast/northwest)

Digital Equipment

- Kantronics KAM All-Mode TNC
- Kantronics KPC3 Packet TNC
