

General Information

W8LT - The Ohio State University Amateur Radio Club
020 Bevis Hall, 1080 Carmack Road, Columbus, Ohio 43210
Repeater: 442.6 MHz (shift: +5 Mhz, PL/CTCSS: 114.8 Hz)
Meetings: 2nd Monday, 6:30pm, 020 Bevis Hall

Welcome to the website of The Ohio State University Amateur Radio Club! The club is located in Bevis Hall, which is shown in the picture above. We share the building with Transportation and Parking Services and the Biomedical Engineering, and because of our location on West Campus, the building is free from the congestion of main campus. Our antennas are located on the elevator tower on Bevis which provides obstacle-free transmission in all directions. Check this page regularly for updates regarding club events and activities!
